

# Quality by Design- **AURELIA**<sup>®</sup>

Premium quality gloves without the premium cost. *Aurelia gloves* are designed to provide the protection you need and the comfort you deserve. Customers demand quality and protection that provides the right comfort, fit, and sensitivity needed to deliver consistent performance. *Aurelia Gloves* provide a host of options, each uniquely designed to address the needs of those working in the following industries.

**Comfort**– Gloves need to feel good over an extended period of time. Aurelia gloves flex to the natural movement of your hand and conform to the subtle nuances of your finger and palm. They are built to function like your skin.

**Safety**– Conforming to the highest standards set by the American Society of Testing and Materials (ASTM), Aurelia gloves ensure dependable barrier protection each and every time.

**Sensitivity**– Aurelia gloves offer excellent tactile sensitivity allowing you to manipulate instruments and materials with a natural feeling. The patented honeycomb texture design ensures exceptional gripping action in both wet and dry conditions.
