

Government and MG Scientific

As we head toward the end of the 2020 fiscal year and prepare for 2021, MG Scientific is pleased to introduce several new opportunities to save. Featured only on MG Scientific GSA Schedule #GS-07F-154CA and available only to our customers in the Federal Government, MG Scientific is offering a sale on Select Finn Pipettors and Corning Falcon brand cell culture products. These items will remain on sale through end of calendar year 2020. *This advertisement is neither paid for nor sponsored, in whole or in part, by any element of the United States Government.*

Thermo Scientific Molbio FinnPipettes

You can support social distancing in your lab by providing each scientist with their own pipettor. Finnpipette Fixed Volume Single Channel Pipets are great for set protocols and QA environments, Thermo Scientific Finnpipette F1 Fixed Volume Pipettes deliver a light, smooth pipetting action and an adjustable finger rest to maximize your comfort. Finnpipette Multichannel Pipette with a sleek, rugged design is ideal for highly-demanding applications where robustness and durability are essential. Dose liquids from reagent bottles with Thermo Scientific Finnpipette Dispensers.

- Fixed Volume Pipets
- Variable Volume Pipets
- Multi-channel Pipets
- Finnpipette Dispensing

Corning Falcon Cell Culture

Scientists never stop thinking about where their research is headed and if there is a better way to get there. To that end, Corning-Falcon offers a comprehensive selection of vessels and cell culture products with advanced surfaces designed uniquely with your research objectives in mind. Critical research being conducted around the world relies on Falcon brand products for consistent, reliable and reproducible results. See the entire [Falcon portfolio](#) at [mgscientific.com](#).
