

New Year's Resolution – 2018

*Does your New Year's resolution include being more organized, more efficient, or a commitment to a more cost effective way of doing business? If so, it's time to ask MG Scientific about **invenTRAK**! If you encountered any one or more of these challenges in 2017, MG Scientific's **invenTRAK** system is an ideal solution for your business.*

invenTRAKSM

- Ordering excess inventory to achieve manufacturer or distributor sale discounts
- Running out of critical supplies delaying laboratory production
- Avoidable expedited freight fee's associated with emergency stock replenishment
- Paper based supply request systems dependent on multiple departmental inputs
- Difficulty in accurately allocating supply costs to the department and user level
- Having to track multiple deliveries and product receipts from a single order
- Processing of multiple invoices from a single order
- Failure of personnel to report depletion of supplies until last item is consumed
- Delays due to manufacturer or distributor back order
