

MG Scientific - February - Labconco Biosafety Showcase

Clean air, controlled environments, and validated performance are essential to every successful lab. That is why over the past 20 years, MG Scientific has partnered with Labconco to deliver custom solutions for the containment, ventilation and cleaning needs of our customers. Backed by more than 90 years of innovation, Labconco's Biological Safety Cabinets, Fume Hoods, and Glassware Washers define excellence in laboratory protection. Contact MG Scientific today to find the right solution for your air handling needs.
