FACT miscellaneous

Halloween has been around for more than a thousand years. Originally a religious observance, it became increasingly secular over the centuries until its religious trappings all but disappeared. Its origins can be traced back to the ancient Celtic festival known as Samhain; held on November 1 in modern calendars. It was believed that on that day the souls of the dead returned to their homes, so people dressed in costumes and lit bonfires to ward off spirits. This gave rise to popular tropes such as witches, ghosts, and goblins.
