

## MG Scientific - End of Year Multi-item Showcase

In December of 1985, Founder, Jim McKeown opened MG Scientific. MG Scientific ventured to be a company that reached beyond the product catalog to assist customers with achieving operational efficiency and to be their partner in a diverse scientific product market. As we celebrate our 40th year in operation, we want to say Thank You to all our customers who recognize the uniqueness of the MG Scientific service model and who without, we could not have achieved this major milestone. We look forward to serving you for many years to come.

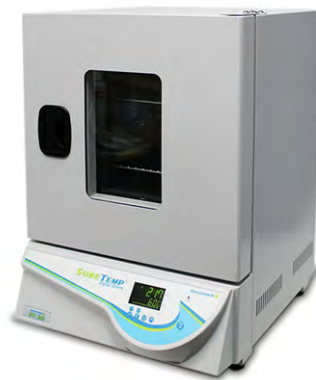

### CELLTREAT<sup>®</sup>

#### Centrifuge Tubes, RackMaster

### eFACT general

Each year there are approximately 20,000 "Rent-a-Santas" across the United States. They usually undergo seasonal training on how to maintain a jolly attitude under pressure from the public. They also receive practical advice, such as not accepting money from parents while children are looking and avoiding garlic, onions, or beans for lunch.
