

MG Scientific - Thermo Fisher QBR

Now through December 2026, MG Scientific, in partnership with Thermo Scientific, is offering a limited-time opportunity to modernize your laboratory with high-performance benchtop instrumentation at savings of up to 55% off list price. Enhance laboratory efficiency, improve workflow, and expand analytical capabilities with a comprehensive portfolio of Thermo Scientific equipment, including magnetic stirrers, orbital shakers, centrifuges, temperature control systems, electro chemistry and water purification solutions. Whether replacing aging instrumentation, increasing throughput, or outfitting a new laboratory, this program provides a cost-effective path to acquiring the reliable equipment your applications demand.

Save up to 40%

Instant savings are available on select Thermo Scientific Centrifuges, Shakers, Incubators, Environmental Chambers and Water Purification Systems.

Heratherm Refrigerated Incubators
Smart2Pure Ultrapure Water System
Solaris Incubated Benchtop Shakers

Save up to 50%

Save up to 50% on qualifying Thermo Scientific electrochemistry solutions, pH meter kits, and more.

Lab Star PH111 pH Bench Meters
pH/ORP PH211 Pro Star Bench Meter
VERSA STAR PRO Benchtop Meters
A320 portable pH meter
Double Junction pH Electrode

Save up to 55%

Instant savings are available on select Thermo Scientific Stirrers, Thermal Mixers, Dry Bath Block Heaters, Shaking Water Baths, and SpeedVac Concentrator kits.

Cimarec Digital Stirrer
Precision Shaking Water Bath
Digital Dry Baths Block Heaters
Precision Shaking Water Bath
Savant SPD131 SpeedVac Kits
