

MG Scientific - End of Year New Item Showcase

Welcome to the last edition of eLABorate for calendar year 2023. Once again, we are pleased to showcase products from the industry's leading manufacturers of laboratory essentials designed to address the most exacting needs of your analytical applications. As we look forward to 2024, MG Scientific will be introducing new products from our existing partners as well as those from new partners, expanding our portfolio and continually addressing the evolving needs of our customers. We wish you all the happiest of holidays and look forward to a prosperous new year.

FACT miscellaneous

You probably already knew that the idea of Santa Claus came from St. Nicholas. The saint wasn't really a bearded man who wore a red suit; that look came much later. In the fourth century, the Christian bishop gave away his large inheritance to the poor and rescued women from servitude. In Dutch, his name is Sinter Klaas, which later morphed into Santa Claus.
